

Mini-DisplayPort to HDMI 4K Adapter (passive)

Part No.: 41719

Description

- Connect a Mini DisplayPort computer to a HDMI 4K display
- Supports resolutions up to 4K (3840x2160p) at 30Hz
- For use with Thunderbolt 2 & Mini DisplayPort 1.2 equipped computers
- Requires DP++/Dual Mode Graphics Card
- Supports audio
- 2 years warranty

This Mini-DisplayPort 1.2 to HDMI 4K Adapter allows you to connect a Mini DisplayPort 1.2 or Thunderbolt 2 equipped computer to a 4K HDMI monitor, TV or projector. This allows you to use your HDMI display with newer Mini DisplayPort devices. It is ideal for use in established digital entertainment centres, home offices, conference rooms or advertising displays.

Please note: For audio output to HDMI your computer must support audio output via DisplayPort. Contact your computer or graphics card manufacturer for further information.

This adapter / converter cable supports iMac / Mac / MacBook Thunderbolt ports.

If you are having trouble with 4K displays please refer to <https://support.apple.com/en-us/HT202856>
