

## F26 1RU Pre-Terminated Breakout Panel – 24 Position LC Duplex/SC Simplex/E2000

### Description

This 1RU Pre-term Breakout Panel is designed to provide housing for connections from a preterm to patch cords. The open frame allows for quick and easy installation of connectors. Having the option to use an array of different adapter types by using a different front plate makes this panel suitable for a wide range of applications. A key feature of the panel is that it provides space within the 1RU space to route the patch cords through to the back of the rack.

### Features and Benefits

- Simple design provides easy access for installers
- Tray has cable management hoops and tie locations for neat and tidy solution
- Changeable front plates to allow for a wide range of adapter types
- Up to 48 fiber when using LC duplex adapters
- Channel to route patch cords to the rear of the rack with the 1RU space
- Suitable for pre-terminated cables only

### Applications

- Data centers, premise installations, telecommunication networks
- Ethernet, Fiber Channel, ATM, LAN, MAN and WAN

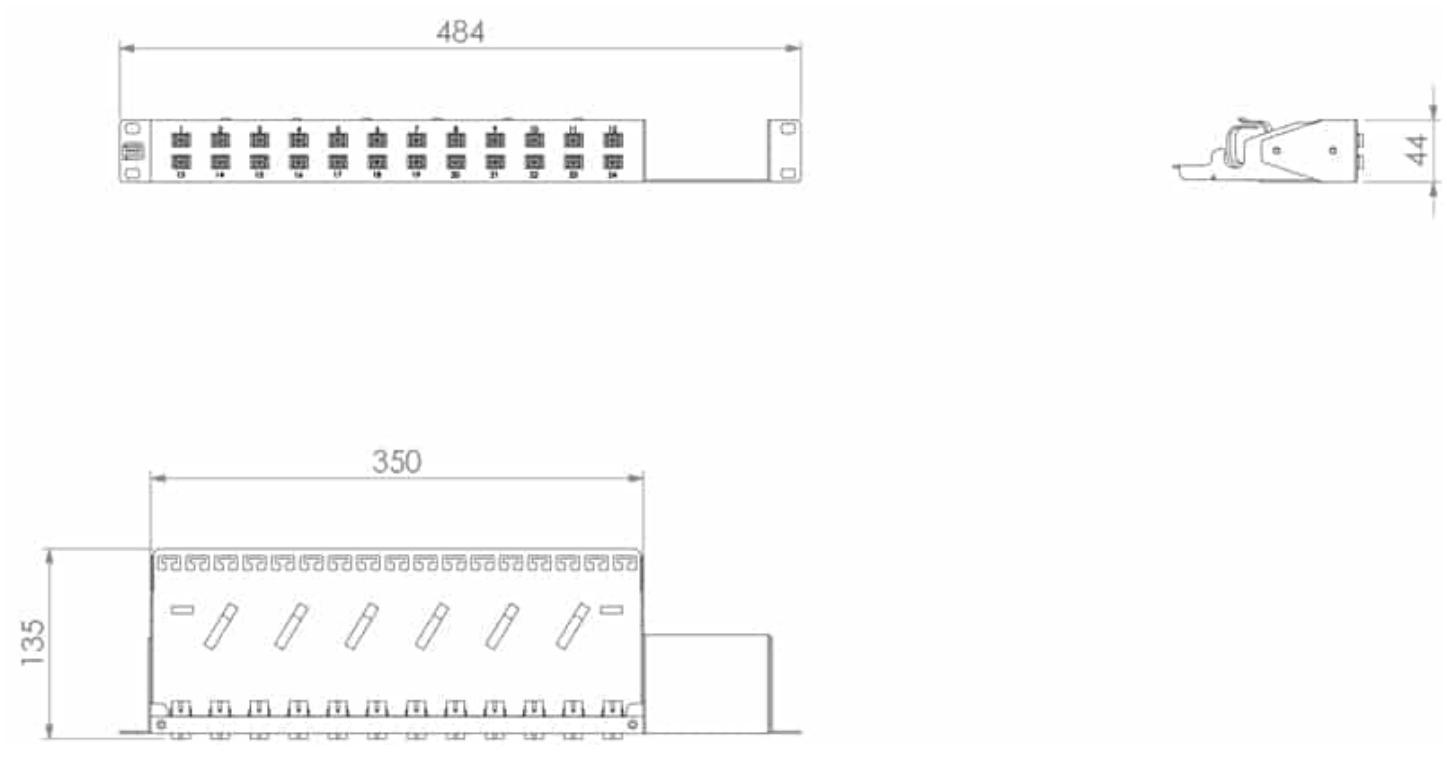

- Data communication

- Indoor applications
