The Lindy LH500XW active noise cancelling headphones are standout, high performance headphones with Bluetooth wireless connectivity, aptX codec support and up to 15 hours of rechargeable battery life. 40mm neodymium drivers ensure excellent audio quality with balanced mids, clear treble and punchy bass.

With Bluetooth & aptX codec support, the LH500XW provide true wireless freedom when listening to music, podcasts, movies or games with exceptional clarity and deep bass. The included 3.5mm cable also provides a wired connection for preserving battery life, ideal for use when travelling or commuting.

The LH500XW feature superior active noise cancellation for blocking out ambient sound, during wireless or wired use, reducing up to 85% of external noise, perfect for noisier environments or creating a more personal private listening setup.

Protein leather earpads ensure optimum comfort through a full day of listening, while the adjustable headband ensures a perfect snug fit.

Audio controls on the LH500XW provide seamless, simple management of playback including playing, pausing and skipping tracks as well as volume adjustment. The in-built microphone also allows for use on phone or video calls wirelessly, with the controls providing the ability to manage the call.

The built-in battery can be charged quickly at around 3-4 hours for a full charge, with up to 15 hours of playback, providing consistent performance over prolonged periods of time.

Lindy also offers replacement earpads for the [LH500XW](#) headphones to ensure your headphones remain looking as good as new.
