

10 Port USB 3.0 Hub with On/Off Switches

No.: 43370

Connect up to 10 USB devices - with On/Off switches for each port

Description

- Allows up to 10 USB 3.0 devices to be connected to a single port
- On/Off switch on each port allows users to manage power consumption of the connected devices
- SuperSpeed transfer rates up to 5Gbps, backwards compatible with USB 2.0 / 1.1
- 36W of power available for devices with large power requirements
- 2 year warranty

A USB hub connects to a PC or laptop and provides additional USB ports for connecting multiple peripherals or other devices simultaneously.

The Lindy 10 Port USB 3.0 Hub provides convenient access and effective power management for up to 10 USB peripherals and storage devices. Capable of data transfer speeds of up to 5Gbps, the hub is also backwards compatible with USB 2.0 and 1.1.

The hub's individual On/Off switching ports can help reduce overall power consumption and are perfect for accessing external hard drives or other periodically used devices. Each port has its own LED power status. The included 36 Watt power supply ensures that there is always enough power available, even for several or power-hungry USB devices.

The unit also features USB Battery Charging ports which are each capable of delivering 5V 1.5A up to a total of 36W when the hub is connected to the external power supply, perfect for charging larger devices such as smartphones and tablets.
